

OCAPA Tracked Army's Lines of Efforts

- 1. Ready and Resilient:** Topics related to overall “health” of Soldiers ranging from mental/physical health to transition related matters. This includes; health conditions, medical programs, health related benefits, Army medical centers, and efforts by the Army to provide better care for its troops at home and in military zones outside the country

Strategic Importance/Impact: The Army force must be able and readied to be called upon for a variety of missions. Critical to this is ensuring that our force is “Ready” through assets available to the entire force helping them address a variety of issues. It is through this “Resiliency” that will maintain a ready and capable force.

ACP: Prepare for Tomorrow

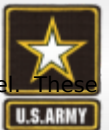

3. **Army of 2020 and Beyond:** Topics highlighting 'strategy' and plans for where the Army is going, what its force will look like, and changes to its organizational structure.

- **Strategy** - Big picture plans and strategy of how, why, and where our forces and policies are laid out around the world/nation. **Includes ARFORGEN** (entire Army deployment cycle of RESET, train, ready -Army Force Generation model, which refer structured progression of increased unit readiness over time resulting in recurring periods of availability of trained, ready and cohesive units.
- **RAF** -Regionally Aligned Forces (RAF) will provide every Geographic Combatant Command with regionally aligned, mission trained forces that are responsive to all requirements. Regionally Aligned Forces will complement warfighting skills with language, regional expertise and culture training. Regional alignment will better prepare the Army to work in close collaboration with our many partners across the full range of military operations, simultaneously helping our friends and allies while deterring foes. **Not every day current ops.**
- **Total Force Policy** - Specific strategy of role of the NG and Reserve fits into total force. (National Guard/Reserve - role in total force, rotational troops, operational reserve). **Not related to:** every day current ops, specific guard units returning, guard Soldiers with specific post deployment issues, committing crimes.
- **Recruiting/Retention** - The strategy of how the Army plans to recruit, maintain, and let go of certain Soldiers across the Total Force. (Retention programs, and stop-loss)
- **Training** - Training as it applies to preparing for and improving future Army operations. Includes new forms or training- not routine topics- which show how the Army adapts to new threats/issues and then trains its Soldiers to become more skilled at addressing said issue. **(New doctrines)**
- **Unit organization**- Organization and structure of units and troops. Includes **BRAC** (Base Realignment and Closure structure stories, studies, impacts, support for, future rounds) but not budget/\$ topics, BCT (Brigade Combat Team) reorganization, end strength (drawdown), Human/Materiel reset, force structure. **Not related to:** every day current ops.
- **Human/Materiel Reset** - Programs and initiatives designed to boost Army personnel readiness or Programs and initiatives designed to boost Army equipment availability.
- **Women in the Army (WITA)** - Official Army terminology is Women in the Services Review (WISR). The role of women in the Army, women in combat, role of women in shaping future force-- uniform changes for women, women in combat, opening of new MOS, new fields opening, female milestones (first XXX) **(not sexual assault/rape)**
- **Modernization Plans** - Everything that is brand new for the Army: technologies, vehicles, all sorts of gadgets, special facilities, etc. This is different from Army Modernization in that plans are set to occur rather than being discussed or tested. Network (Modernization)- Anything related to the Army Network. Includes NIE
- **Soldier/Squad/Other protection (Modernization)**- Any modernization plans, strategy, or execution to improved the safety and operational capability of the Soldier or his squad. Includes equipment for the Soldier himself (Body armor) and also to help him operate (cameras, gear, etc).
- **Vehicles (Modernization)**- Includes JLTV, GCV, other vehicles.
- **Other Modernization** - Current/Future Programs, Improvement, Contracts, Modernization Strategy. (Basically any modernization that does not apply to Soldier/Squad, Network, or Vehicles).
- **Current Programs** - News on current Army programs or systems other than improvements.

ACP: Reform & Restructure

4. **Stewardship:** Topics highlighting the Army acquisition practices, program management, and energy related issues.

- **Energy - Army Energy**- operational energy, energy access and security, energy initiatives, energy-efficiency efforts.
- **Budget** - Topics about the budget as it relates to the Army. This can include cuts or increases in funding of benefits, equipment, or personnel. **These article must focus more on the monetary budget elements of these topics to be coded here.**
